Supernatural, Lucifer/human!Gabriel, feathers ripped out

PG, dark, S5 AU <-- again exactly what it says on the tin.

Gabriel is fighting him, twisting in his hands as Lucifer draws the last of his Grace from him, extinguishes the holy light within Gabriel.

Gabriel can feel it, the second he's lost, but -

Lucifer suddenly draws back, flinching in pain as Gabriel holds onto his trophies.

Lucifer's feathers are sharp blades of metal that tear into Gabriel's skin even as he lets go of them, but even through the pain Gabriel is smirking at him.

"You - " Lucifer makes a sound, and more feathers fall as Gabriel reaches and *pulls*.

It may not be lasting damage, it may hurt Gabriel more than it does Lucifer, but -

Lucifer *hates* the sharp pain of feathers ripped out, *hates* how vulnerable he feels due to it.

Lucifer snarls, and Gabriel knows he may not survive this -

but that pain is the closest thing to just desserts that Gabriel can give Lucifer now, in exchange for his Grace.
